국립국제교육원

Supervisor |  국립공주대학교
Kongju National University

National Institute for International Education

is a national agency under the Ministry of Education, established for education of overseas Koreans and international education exchanges and cooperations. It is responsible for planning, selecting, administering and evaluating Korean Homeland Education.

Kongju National University

is a university that fosters secondary school teachers. The University established the Institution of Korean Culture & Education specializing in the education of overseas Koreans. The Institution is in charge of operating (classes and students) domestic education programs for overseas Koreans.

? What is Korean Homeland Education?

'Korean Homeland Education (K-HED)' is an education program for overseas Koreans made to cultivate the ethnic identity of overseas Koreans and help next-generation overseas Koreans to grow into global talents. This program comprises the Korean language, Korean culture, and Korean history classes, as well as field learning. K-HED is the only long-term education program for overseas Koreans in the nation that provides career guidance and a network of overseas Koreans.

? What is Korean Homeland Education like?

If I can take the course again??

2019 University Preparation Course II Student_Hwang Jain

(Jordan, George Mason Korea University)

I was afraid to come to a strange place where I didn't know anyone, but I was able to adapt to new environment due to good teachers and friends from all over the world. If I have a chance to participate in this program again, I will come back without any hesitation.

2019 University Preparation Course I Student_Jeong Hyeshimryeong

(Japan, Kongju National University, Department of Cultural Heritage Conservation Science, Sophomore)

Korean Homeland Education was a trip for me to find my own history. During the education, I learned how my ancestors' lives were. Moreover, I visited my parents' hometown and felt like I found the my root that I have forgotten.

A trip where I found my history

A program that helped me for admission to a Korean University

2020 Online Education student_Niirina (Kyrgyzstan, Plan to enter Korean University)

Though I was not fluent in Korean, I now have better Korean skill via this program. Also, through mentoring of graduated students, I was able to grasp Korean University lives and was admitted to a University. Even Though, I took classes Online programs only, the program helped me during this hard time for everyone.

2020 Online Education student_Isharon (Argentine)

COVID-19 prohibited me from going to Korea. However, participating in Online Education, I was able to have classes just like in Korea. I have better Korean grammar now and met many friends via real-time classes. Taking Korean History, Korean Culture, and Global Citizenship Education, I have this mind that I have to live as a representative of both Korea and Argentina.

I wanted to go to Korea!
